Ex. 6 Personal Privacy (PP)

I know Ed from Sealaska who works in my building. The upper Columbia project is a challenge but it appears we are moving forward.

Subject: NEBC talk

Hi Mr. Hladick,

A quick note to say thank you for taking the time to present at yesterday's NEBC meeting. I understand from our CEO, Anthony Mallott, that you know of Sealaska, perhaps from your time with the CCED.

I was hoping to meet you firsthand after the meeting but you were talking with others and I needed to head out. Just wanted to mention that Sealaska will be working with the Coleville Confederated Tribes' Environmental Trust Department to provide scientific/technical support to CCT in their role as a Participating Party/Trustee during activities pertaining to the RI/FS of the Upper Columbia River Site. Our upcoming work is anticipated to entail contaminated sediment management, hydrodynamics, and natural resources damage assessment and restoration consulting services. I am personally very much looking forward to our project with the CCT and feel this could be important work in relation to supporting their natural resource management goals.

Thanks again and the very best wishes on your new journey with EPA. I hope to cross paths with you again down the road.

Best Regards,
Randy
